

Nitrogénművek as the only hungarian nitrogen fertilizer producer company has the primary goal to meet the domestic market needs. The company is in the market-leader position in Hungary. First of all the declared objective is to meet the fertilizer demand of the hungarian farmers.

Besides, however, the company also tries to wholly utilize foreign market potentials. The company aims at keeping and strengthening their conventional clients, together with finding new partners as well.

Nitrogénművek managed to strengthen its relations to its traditional clients via higher level of services and with more awareness for the clients' demands.
