

Dear Farmers!

The Nitrogénművek Zrt. as the only nitrogen fertilizer producer in Hungary works for you since 80 years.

From beginning of the fall fertilizer application season of 2009 Nitrogénművek Zrt. establishes and launches the Genezis Partner network. Through this network the company can consult the adequate types of fertilizers with the suitable price, tailor-made for each individual, farmer and acreage.

In this new system the distribution of the products of Bige Holding group's companies got a unique form. Our sales managers work in every county in Hungary.
